Education Background

- **Bachelor of Technology**
  Mechanical Engineering
  Aditya Engineering College
  2022-2025

- **Diploma**
  Automobile Engineering
  GIET Polytechnic College
  2019-2022

Programming Languages

- Python
- C Language

Proficiencies

- Google Cloud Platform
- AWS
- Python
- Networking
- Git & GitHub
- Docker
- Kubernetes

Achievements

- 200+ programs in GeeksforGeeks.
- 100+ programs in Leetcode.
- 5 star in Python, Problem solving in Hacker Rank.
- 90+ industry-recognized licenses and certifications.

About Me

Cloud and DevOps Engineer with experience in CI/CD pipeline development, containerization, and cloud infrastructure management. Skilled in Python programming and committed to optimizing processes and enhancing efficiency.

Work Experience / Internships

TECHNICAL HUB (Cloud Engineer)

June 2023 - Nov 2023

- Managed GCP infrastructure and maintained Linux servers for optimal performance and security.
- Managed and queried SQL databases for efficient data handling and analysis.

TECHNICAL HUB (DevOps Engineer)

Nov 2023 - March 2024

- Developed CI/CD pipelines with Jenkins and GitHub; automated infrastructure provisioning with Ansible.
- Deployed and managed containers with Kubernetes for efficient scaling.

TECHNICAL HUB (Python Programmer)

February 2023 - April 2023

- I enhanced my skills in Python Programming through Hands-on experience and problem solving.

Projects

SENTIMENT ANALYSIS

Developed a sentiment analysis project to classify user-provided text as positive, negative, or neutral, using natural language processing techniques.

CI/CD PIPELINE AUTOMATION PROJECT

Developed a CI/CD Pipeline Automation Project by using Jenkins, GitHub, and Ansible to automate build, test, and deployment processes for efficient application delivery.
